

航空無線通信士「英会話」試験問題

(注) 解答方法： 選択肢の中から最も適切な答えを一つ選び、その番号に対応する答案用紙のマーク欄を黒く塗りつぶしなさい。

**QUESTION 1** A movement of extremely high pressure air is generated when an airplane exceeds the speed of sound. What do you call this kind of wave?

1. A light wave
2. A radio wave
3. A shock wave
4. A tidal wave

**QUESTION 2** In the figure skating competition, spectators were stunned by the winner's performance. How well did he skate?

1. He skated as well as the other skaters.
2. He skated exactly as they had expected.
3. He was well illuminated by the spotlight.
4. His skating far exceeded their expectations.

**QUESTION 3** Each department has been requested to submit its budgetary quotations for the coming year. What numbers are being requested?

1. Best estimates of operating costs and capital expenditure
2. The expenses that each department budgeted for last year
3. An estimate of the total combined costs for all departments
4. Exact itemized amounts that each department spent last year

**QUESTION 4** What do you call the route to the airway after take-off?

1. En-route
2. The transition route
3. The interpolation line
4. The area navigation route

**QUESTION 5** You are the captain of a plane. You have reported an obstruction on the taxiway and have been asked whether you can move around it or not. What does "move around" mean in this case?

1. Cancel the flight.
2. Get past the obstruction.
3. Run over the obstruction.
4. Get out of the plane and remove the obstruction.

- QUESTION 6**      The airplane is doing a low pass near the airport control tower. It appears to be confirming something. What do you think the pilot might be doing?
1. The pilot may be checking taxiway visibility.
  2. The pilot and controller might be having communication problems.
  3. The pilot may have asked the controller to check the landing gear status.
  4. The pilot may be demonstrating the aircraft's ability to fly at low altitude.

- QUESTION 7**      You are the captain of a passenger plane and have to go back to the ramp for de-icing due to heavy snow. Upon approving your taxi-back request, the controller instructed you to use caution. What is the most likely reason for this?
1. Because the passengers may catch cold.
  2. Because the taxiway is slippery with ice and snow.
  3. Because of the possibility of heavy rain and gusty winds.
  4. Because the runway is contaminated with hydraulic fluid.
